

“IS THE EARTH A MOLTEN BALL THAT IS SLOWLY COOLING?”

MURPHY’S LAW:

Firstly “If you repeat a lie often enough ... people start to believe it”

Secondly “Make sure it’s a biggie!”

A FAIRY TALE FOR ADULTS

Way back in the **eons of time** (no-one has a clue, ‘pin the tail on the donkey’ if you can), out of a **speck of dust** (where that came from nobody knows) exploded (called the **Big Bang** - that’s the best they can come up with), and all the matter in the universe ... the galaxies, the stars the planets (no-one can count how many ... that’s got to be **10^{trillions} tonnes in weight**, and all this matter shooting out in **linear fashion**, and rapidly continues to expand, somehow started to **swirl** ... how? when? where? why?) and somehow formed into **globbs of stuff** which grew into planets and stars, which all magically revolve in circles around **our sun**.

LOOK FOLKS I COULD GO ON, BUT I THINK YOU’RE GETTING THE PICTURE ...

The point of the story is this ... well it stands to reason doesn’t it?

I mean you’ve got this hot molten ball of ‘lava’ that has to cool before anyone can walk on it ... let alone grow vegies on it!

So we’ve needed ... how many billions of years (the bigger the number the better, so the average punter can’t, indeed, won’t, argue with the scientists ... they have doctorates you know).

I mean when you take an egg out the boiling water ... you’ve got to let it cool down, don’t you?

I mean, a blacksmith knows you just can’t take molten metal out of the furnace and pick it up with bare hands!

So the earth has needed ... how many years for the surface crust to cool? Billions of years!

ANYHOW ... THAT EXPLAINS WHY JUST UNDER THE EARTH'S SURFACE "IT IS WEERRY, WEERRY WEERRY HOT!" said Tweety Bird.

THE BIBLE EXPLAINS IT THIS WAY

In the beginning, God created the heaven ... that vast expanse called the universe, and the earth.

Yes, after the 'landscape', the 'tapestry' if you will, the 'blank canvas' upon which to draw, God plopped the earth in the middle! And then he created the sun and the moon and the stars and the birds and the bees and man and the leviathans and behemoths (dinosaur was a name invented a couple of centuries ago ... as they throw their hands skyward crying 'Heavens to Betsy' (who knows what that means) lest they believe and use Bible terms.

Anyhow the point of the story is this ... Jesus Christ a.k.a. God Almighty manifest in the flesh ([1 Timothy 3:16](#)) who created heaven and earth, looks out of heaven and says "I reckon I did a pretty good job!" ([Genesis 1:31](#)).

NOW HERE'S THE RUB FOR THE SCEPTICS

Jesus Christ made man in his image and the earth was also created, and indeed reflects, the 'image' of Jesus Christ.

Now as Jesus Christ is called the Rock ([1 Corinthians 10:4](#) + many other scriptures) our unbelieving friends would say "Jesus looked out of heaven and saw a ball of molten lava that slowly cooled from the outside, and when it cooled down, he put birds and trees and people on it.

But of course "He didn't" they would say.

Somehow this Adult Fairy Tale gets really weird because out of the cooled rock, inert with no life, lightning hits a pool (where did that come from? Oh the rain ... where did that come from) teeming with biological primordial slime. Oh yes, the slime comes from the crushed rock ... or something.

I think the theory now has 'biological trans-spermia' (what's that?? rocketing millions of miles through space ... yes through the Van Allen Radiation Belt (do some research folks and be amazed that nothing but nothing but nothing but nothing has ever and never will, transport itself through this Belt).

Look I could go on, but I hear yawning, so I must bring this article to a close.

NAY! WHAT JESUS CHRIST CREATED WAS A SOLID ROCK ... JUST LIKE HIMSELF!

That's why he pronounced it all good. You can almost hear him saying "I'm the Rock and there's my rock down there!"

SO WHERE DID HELL COME FROM THEN?

Simple Dear Reader, when Lucifer and 'friends' (Satan and his angels) were thrown out of heaven, Jesus Christ had to create another place for the 'dear fellow' ... but it couldn't be in heaven ... first of all Christ gives Satan a temporary stop off on earth, on his way to his eternal home (hell) under the earth.

The solid rock under the earth immediately was changed into molten lava for the devil and his angels ([Matt 25:41](#)) when Lucifer wanted to be like the most high God ([Isaiah 14:14](#))

Yes Folks, in spite of the well meaning Christian literature, Satan has not been to hell yet ... as he is the god of this world ([2 Corinthians 4:4](#)).

And those that reject Jesus Christ as their Saviour will join him in 'one big party' (as they say) ... first of all in hell and then in the Lake of Fire ([Revelation 19:20](#)) ... "Ouch! Ouch! That's hot! Can I get out now?"

Imagine the temperature being 2,000 or 3,000 degrees and trying to have a party? Not for me.

BUT ALL THIS DOES MAKE SENSE ...

God, Jesus Christ, has two natures – **total wrath** of fire in hell and his **total love** found in Christ in heaven. I mean there's Christ in the Book of Revelation, Gods love in Jesus, exhibiting brass and fire ... that is judgment and wrath ([Revelation 2:18](#)).

THE TWO NATURES OF CHRIST!

Bam! Love it or shove it! The Book runs the world!

You can have his wrath or his love.

It does makes sense though doesn't it ... Christ is the number two of the Godhead his creation reflects his two natures – hell and heaven, wrath and love.

The Big Bang? Evolution? It just gets sillier and sillier doesn't it? What will they come up with next?

Could it be CC?

Of course CC is a fact and will come to fruition ... you can put your house on it ... it's just that the opposition of science falsely so called ([1 Tim 6:20](#)) will not lay the blame at the real cause – solar wind that comes from the ... wait for it ... the sun.

Mmmm! The sun being the Son's creation is getting a bit 'stirred' up and will make an appearance shortly. Christ is called "the Sun of righteousness" ([Malachi 4:2](#)).
